CEDEFOP

Cedefop launches timeline of VET policies in Europe: This tool is a collection of strategies, action plans, legal acts, regulations, and practical measures in vocational education and training (VET) and lifelong learning (LLL) in the EU Member States, Iceland and Norway. Cedefop collects the data with the annual support of all the ReferNet partners.

<https://www.cedefop.europa.eu/en/tools/timeline-vet-policies-europe>

“Can microcredentials enhance employability, labour market participation and outcomes among end users? Can skills assessments and micro-certificates awarded in specific sectors support individuals in finding work or in improving the match of their skills with their job?” A Cedefop article on microcredentials sheds light on this growing trend in education and training, its benefits and limitations as well as the challenges that must be dealt with if its value is to be maximised for workers, learners and the labour market.

<https://www.cedefop.europa.eu/en/news/how-much-microcredentials-are-really-worth>

Podcast: Why aren't apprenticeships offered in high-tech industries such as video gaming? What are the advantages and disadvantages of virtual reality in education? What is the modern role of a teacher?

Elm Magazine

Are vocational skills still enough for adults in the challenging job market? Marcella Milana, professor in education and Chair of the European Society for Research on the Education of Adults, believes that unless we consider adults as citizens first, vocational skills won't be enough.

<https://elmmagazine.eu/redefining-skills-and-competences/vocational-skills-are-no-longer-enough-for-adult-education-in-europe/>

Communication and cooperation skills are important in today's labour market. But how to assess them? Professor Maurice de Greef from Vrije Universiteit Brussel has studied the validation of transversal skills in the TRANSVAL-EU project.

<https://elmmagazine.eu/redefining-skills-and-competences/transversal-skills-why-and-how-to-make-them-visible/>

Understanding how artificial intelligence (AI) works is a key skill – now and for tomorrow – says leading computer science and information technology professor Matti Tedre.

France

Publication on Training and career paths: While young women are still more educated than men, gender inequalities in the labour market are not decreasing. From access to employment to wage levels, this Céreq Bref takes stock of the situation of young people in the 2017 Generation after three years of working life, compared to that of the 2010 Generation. If the circumstances

are different, glass ceiling and sticky floor do not seem ready to waver.
